

Revolutionary Biography Glogster Project

You will create a digital poster about your revolutionary figure by using Glogster: <http://edu.glogster.com/>

Directions:

1. Go to <http://edu.glogster.com> and use the username and password provided for your student account.
2. Click on Create a Glog!
3. Use the toolbar on the left to make changes to your Glog.

Tips:

- The WALL is the background of the Glog, which you should change first to create the theme of your project (you can always change it again later).
- Any textbox or image examples will stay in place as you change the WALL - you may keep or delete these.
- You may add graphics, text, images, videos and sounds to your creation.

Your poster must include a minimum of the following elements:

- a title box with your revolutionary figure's name
- three text boxes with details of your revolutionary figure's life
- a picture of your revolutionary figure
